To Whom It May Concern:

At the Luce County Road Commission we have been using the Mazzali Agency as our Health Insurance Agent for 17 years.

They have always provided us with good service. They are prompt to answer our questions. Their insurance representatives have been willing to research and analyze cost saving options and present them in an easily understood manner. They are well prepared and do a good job when handling employee meetings and retiree meetings.

Overall we have been very satisfied with the Mazzali Agency.

Sincerely,
